

I am concerned about the plans to allow LPFM stations to take priority over FM translator services, such as K-LOVE. I am a regular listener and financial supporter of K-LOVE as it is the only station in my community that broadcasts commercial-free contemporary christian music. K-LOVE also supports local ministries through free public service announcements of community events. They fill a unique role in the community and it would be a great loss of this service was displaced by LPFM broadcasts.
